

I am writing to request that LPFM stations do not take precedent over current FM stations, including K-LOVE that is in our community. This station is important to our family and community because it provides positive, family-friendly radio. We would not want to lose this station to other programming due to this ruling. It would be nearly impossible to replace it. Our local K-LOVE station is invaluable to our family and many other families in the Miami Valley (Southwestern OHIO), and so therefore is in the public's best interest. Thank you very much.
